

**Procurement of equipment for new building of Institute for cardiovascular disease –  
Dedinje 2, Belgrade**

**NO. IOP/51-2021/UHI**

**Clarification No.2**

**Issued on 16<sup>th</sup> of June 2021**

**Question 1:**

In order to prepare tender documentation, we have a question about LOT 3, and products that should be supplied under lines 7, 8 and 18.

As we have checked tender documentation we have found that purchaser has asked bidders to apply with ALIMS registration for some products and for some products purchaser has marked that ALIMS registration is not needed. Corresponding to those demands we have figured that ALIMS registration is asked for medical devices and not necessary for non medical devices. Thus we have a question about products considered as non medical devices but in tender documentation is not mentioned that ALIMS is not necessary.

For products under lines:

- 7. Roll holders with cutting device,
- 8. Trolley for transport sterile material,
- 18. Sealing device for sterilization rolls

is it necessary to apply with ALIMS since they are not considered as medical devices?

Answer 1:

Having in mind that mentioned products are not medical devices, bidders do not have obligation to submit ALIMS registration for those devices.
